BRISBANE TROOP OF SCOUTS WISH TO BUILD FLOAT

Donations Asked In Order That Community Be Represented

(Editors note: Scoutmaster H. B. Johnston of Troop No. 134, Brisbane, asked that the following letter be published. The Sun-Tribune recommends that citizens give strong support to the progressive Boy Scout movement).

The Brisbane Boy Scouts have been asked by Bayshore City and the American Legion Post No. 473 to participate in the Golden Gate Bridge Fiesta on May 28.

Brisbane, as yet, has made no effort in the way of erecting and entering a float to represent this community in the fiesta and the Brisbane Scouts feel that it is their duty to ask aid to enter a float. The Brisbane Scouts have done all within their power to represent Brisbane to the fullest in past performances, and feel that they should not discontinue to do so now, especially at such a time as this.

True it is that they will enter the parade anyway, regardless whether or not Brisbane is represented. But as Boy Scouts of this community, they feel that Brisbane should be there with them. They are loyal to Brisbane, and they feel that Brisbane will be equally loyal to them.

Any person or persons wishing to donate a small sum to this worthy cause can do so by sending a donation to Scoutmaster Harry B. Johnston, P. O. Box 177, Brisbane, Calif. (Please send your name and address along with your donations).

JOINT PROGRAM TO CELEBRATE BRIDGE OPENING

Brisbane Residents Will Go To Bayshore City May 30 For Festivities

Residents of Brisbane and Bayshore City will enter a joint program May 30 in celebration of the opening of the Golden Gate Bridge. The Brisbane Fire Department, Ladies Auxiliary of the fire department, Veterans of Foreign Wars, Social Club, Boy Scouts and many residents plan to go to Bayshore City for the festivities.

Zeno Davis, Hap Trafford and Lou Terry are helping to arrange details of the affair.

PENGUIN CHORUS HIT FEATURE OF 'SWING PARADE'

Critics Agree Patter Dance Is Excellent Piece Of Individual Work

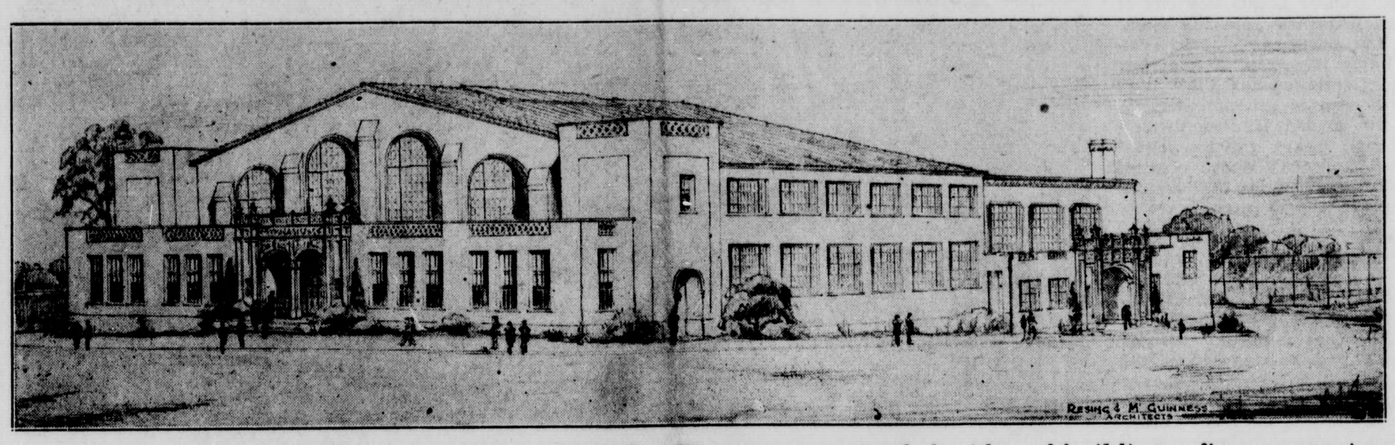
Interpreting the role of Eskimo in "Swing Parade," the musical revue at the Alcazar, Paddy Crowley with his patter dance and leader of the funny little penguin chorus, waddling into the igloo at the close of the number, has been acclaimed by critics as doing the finest individual piece of work in the show.

The parts of the little penguins are portrayed by Peggy Small, Hazel Furtado, Lee Hester McBride, Mildred Frye, Ellma Simoni and Marjorie Kamoku.

This toyland fantasy sequence of "Swing Parade" is one of the most outstanding and striking scenes. Besides Eskimo and the funny little penguin chorus there are included a toy soldier drill number, Quints song and dance number and a song and dance by Cinderella, played by Maxine Dill. The frog is played by Charles Bryson and prince charming played by Leon Forbes.

The Golden Gate Bridge, longest single span in the world, opens to traffic on May 28.

CORNERSTONE FOR NEW HI GYM TO BE LAID SUNDAY



Once a dream—now it is becoming a reality. Pioneers conceived the idea of building a fine gymnasium and swimming pool for Jefferson Union High School. A year ago progressive minded citizens displayed the true spirit of the high school district by voting bonds to erect the much needed edifice. Today ribs of the steel and tons of concrete are taking an objective form which will be one of the greatest assets to community life in northern San Mateo County.

At 2 o'clock Sunday afternoon (May 23) the cornerstone of the new gymnasium will be laid. The high school band and a capella choir will participate in the program. Dr. Walter Dexter, state superintendent of schools, is expected to be present and will officiate in the ceremonies.

COMMITTEE CHAIRMEN ANNOUNCE PROGRAM ACTIVITIES PLANNED FOR FIESTA AT BAYSHORE CITY

Costume Ball, Parade And Contests Are Features Of Celebration

Under the direction of Bert Ford, program chairman; Al Taylor, general chairman, and Jack Lawson, honorary chairman, the following program has been announced for the Bayshore Golden Gate Bridge Fiesta celebration:

Friday, May 28—Free costume ball and the coronation of a queen. William Mardecich and committee are handling ball arrangements. They have secured Mel Lyons and his

DON AMES

FROWNS — President Roosevelt's plan to enlarge the Supreme Court is being frowned upon by the many conservative persons and factions in this country. These conservatives maintain that the President is trying to "pack" the court for his own ends.

Although I am no authority on political science, it seems to me that we should be more tolerant with the Chief Executive and his policies. After all, nothing can be accomplished if it isn't tried. Many plans which Roosevelt formulated to place this nation on its economic feet were at first laughed at by seemingly intelligent citizens. Take, for example, the CCC or the FHA and legislation regulating the purchase and sale of stocks and bonds. After months of actual test in the laboratory of national business and government these policies are found to be sound.

* * *

SHORT STORY—Disaster reaches its finger into the new "promised land" of America as flood waters sweep down on Fairbanks, Alaska.

* * *

TODAY'S EPIGRAM—A goal may never be satisfactorily reached by trying to overshoot it or by lagging with an undershot. Determine clearly what the goal is, strike a steady pace and keep going till the steady pace and keep goin gtill the objective is reached.

Auditorium Asked By Resolution

The Visitacion Elementary School District has drawn up a resolution requesting that a sum of $9970 be allocated for the purpose of building an auditorium at the Bayshore School.

It is expected that WPA money will be available to assist in the construction.

Brisbane To Have Catholic Program

Mass will be celebrated every Sunday morning in the Brisbane Fire Hall at 9:15. After mass, Sunday school classes will be conducted for about half an hour under the direction of the Sisters of Charity from Mount St. Joseph, San Francisco.

Every Thursday evening until further notice a motion picture show will be given in the fire hall for the benefit of the church building fund.

This year a vacation religious school will be conducted for one month under Catholic auspices.

Jaysee Track Team To Amateur Meet

San Mateo Junior College will send its track team to the Junior Pacific Amateur Association meet at Stanford University tomorrow with hopes of winning the junior college title as it has done on two past occasions.

The Mateans broke three national junior college track records at the West Coast Relays at Fresno when they won the shot, the medley relay and the two mile relay events in outstanding performances. With their other points, they placed second, just behind Pasadena Junior College which was represented by a powerful team.

San Mateo placed ahead of Sacramento, winner of the Northern California conference this year.

Stanford Team Sets New Relay Mark

Eclipsing a 10 year world's record by eight seconds, "Anchorman" Jack Weierhauser, Stanford University runner, is pictured above as he breasted the tape at the finish of the 880-yard relay at the recent Fresno, Cal., relays. The Stanford quartet covered the distance in 1 minute 25 seconds. Weierhauser, "Anchorman" in two other events, was an important factor in Stanford's triumph over teams entered by U. S. C. and the University of California.

FAMOUS KIPLING STORY NOW AT GEARY THEATER

"Captains Courageous" Stars Popular Road Show Run Here

While you are in San Francisco for the Golden Gate Bridge Fiesta don't overlook another great attraction, Metro-Goldwyn-Mayer's magnificent picturization of Rudyard Kipling's "Captains Courageous," now playing a special engagement at the Geary Theater on the road show policy of two performances daily.

Rudyard Kipling has for years been the perennial best seller writer. His works have been successful beyond compare. His "Captains Courageous" ranks at the top among his most thrilling stories and has received unstinted critical praise.

An exciting background with movement that is spectacular—the roaring, remorseless, relentless Grand Banks, soaked in drama and fog, off the rugged coast of Newfoundland. Here is something with newness, novelty and a picturesque locale never before presented to the public.

TO SCENE

Metro-Goldwyn-Mayer sent a full complement of movie makers right to this boiling action and obtained factual, authentic footage of seething situations of the hull busting storms that rage only in the North Atlantic, of the quaint and appealing customs of the village fisherfolk.

This great story of the sea will grip the very heart of you. You will live the roaring drama of men against the sea, their hardships and struggles; you will share the laughter of courageous souls who dare the wrath of the angry waves.

Under the direction of Victor Fleming these great actors live their thrilling roles on the screen. Freddie Bartholomew, Spencer Tracy, Lionel Barrymore are co-starred and are supported by such favorites as Melvyn Douglas, John Carradine, Mickey Rooney, Charlie Grapewin, Walter Kingsford and a host of others.

Local Physician To Address P. T. A.

Doctor Joseph Guardino will be guest speaker at the Brisbane P. T. A. meeting to be held, Thursday of next week at 2 p. m., at the school house.

Plans for a school picnic to be held June 1 on the school grounds were formulated, Thursday of this week, at a P. T. A. executive board meeting. Games and refreshments are planned for the affair.

On June 3 the unit will serve refreshments at the graduation party. Mrs. Ann Coffin is in charge of the activity.

Mrs. Gertha McKinney and Mrs. Thelma Van Kirk are Brisbane delegates to the Seventeenth District card party held in Burlingame today. Six other Brisbane P. T. A. members are attending the party.

FINAL SCHEDULE IS SET UP FOR VALLEY FIESTA

Celebration Most Colorful Ever To Be Held Here Committees Forecast

Members of the executive board of the Visitacion Valley Community Fiesta met for a discussion of final fiesta plans, Monday evening of this week, at the Woodmen of the World Hall, 17 Raymond avenue. Reports of the committees for the fiesta revealed that one of the outstanding celebrations in the history of Visitacion Valley will be staged Sunday, May 30, to Wednesday, June 2.

The complete program follows: Sunday, May 30, 9 to 10:30 a. m.—Pageant, music and dedication exercises at historical Visitacion Rock, Delta street, between Visitacion and Sunnydale. City streets in the vicinity of the rock will be roped off for this impressive pageant.

Monday, May 31, 8 p. m.—Free dancing, vaudeville, fun, "Days of '49." Open house at three halls, W. O. W. Hall, 17 Raymond avenue; Community Center, 66 Raymond avenue; Bon Vitas Hall, 111 Raymond.

Tuesday, June 1, 8 p. m.—Free pageant and dancing. The Visitacion Rock pageant will be presented again at this time, Community Center. Dancing and free shows will be enjoyed at the Center and Bon Vistas Hall.

Wednesday, June 2, 8 p. m.—Grand costume ball, Bon Vitas Hall, 111 Raymond avenue. The committee promises the finest music, Spanish dancers, a big bull fight, a grand

SIX INJURED IN HIGHWAY CRASH NEAR BRISBANE

Cars Demolished As They Hit Headon—Both Traveling At High Rate of Speed

Six persons were injured, three seriously, in a spectacular headon automobile collision on Bayshore highway near Brisbane at 3 a. m. Saturday of last week.

The injured were: Jean E. Hayden, Mrs. Josephine Frye, Mrs. Ethel Wiebalk, Jack Hilton, Barney Bauer and Paul Turcini. All were from San Francisco.

Hayden was driving one car, going north, and Bauer was driving the other, traveling in the opposite direction, according to highway police. The two cars met near the center of the highway just south of the Brisbane intersection. Both machines were demolished.

MOUNTAIN PLAY TO BE "THUNDER IN PARADISE"

Production Has Background Based On History Of Hawaiian Islands

"Thunder in Paradise," tragic story of the Hawaiian Islands of 200 years ago, will be presented for the first time on any stage, on Sunday, May 23, as the twenty-fourth annual production in the natural amphitheater on Mount Tamalpais.

Wearing authentic reproductions of native Hawaiian costumes, flowers and leis, seventeen principals and some 100 extras will take part in the production this year.

Costumes and stage sets for this Hawaiian pageant are being designed by Leslie Crandall. Fred Lono Benrath of Honolulu will act as technical adviser for native pronunciations, authentic music and dance.

SPECIAL MEET

The Board of Councilmen of Bayshore City will hold a special meeting, Tuesday evening of next week. All residents are invited to attend.

Hugh Bradley Says:

Lucky Lad Thinks Yankee Bench Is Best Ball School

(Tom Henrich, twenty-year-old Yankee rookie, qualifies as Hugh Bradley's guest columnist this week and as the luckiest lad in the world because Judge Landis ruled him a free agent and entitled to sell his services to the highest bidder. He tells a few of his experiences with the Yankees.)

By TOM HENRICH

THREE years in professional ball, declared a free agent by Judge Landis and selling myself to the World Champion Yankees for more money than I ever thought was in the world before—it's still all a little bewildering to a small-town boy.

I guess I couldn't understand any of it at first. First off, I belonged to Cleveland. Then I read in a Montreal paper during the winter meetings that Milwaukee had bought me direct from New Orleans. But Judge Landis cleared a whole lot up for me. He's the first real judge I'd ever met.

I just wanted my case clarified. I wanted to find out if everything was on the up-and-up, have the baseball law of it explained to me. If you can't get a square deal in this game, Tom, I told myself—and I meant it, too—there's no use going on playing it.

Judge Landis was fine about it. He didn't try to bulldoze me or trap me into any admissions. He simply wanted the truth, and make believe he didn't get it! Well, I was declared a free agent on the first of April, All Fools' Day. I was too excited to attach any significance to the date. And as it's turned out, the joke hasn't exactly been on me.

When I arrived home in Massillon there were a couple of telegrams awaiting me, and in three days I'd had eight major league offers, four from each league. Perhaps I'd better not say what they were. I weighed 'em all before accepting the Yankees' bid.

I had my reasons for doing that. If I'm ever going to be a major leaguer, I want to be with the best club in baseball. The rest of it is up to Mr. McCarthy.

I haven't been with the Yanks very long. But I never knew there was so much to baseball. Just sitting on the bench through one nine-inning game is a liberal education in itself. In the minors everything is sort of taken for granted. But on the Yanks every player on the squad is in every play. I feel like I've been playing for years from what I've learned already. I never knew they made 'em as wise as Tony Lazzeri.

"Always keep your head up, kid," Lou Gehrig warned me, and the rest of the gang have given me lots of other pointers. On this team if I can't learn how to be a big leaguer I must be pretty dumb.

I was really weaned on football. You've heard of the Massillon Tigers and the Canton Bulldogs. They were playing great pro football before I was born. I've had my dad sit down with me by the hour and tell me about Jim Thorpe, Bob Nash and the rest of those old-timers. Nash was a graduate of Rutgers, and he was the only end ever to stop Jim from running. But, of course, dad's favorite team was the Tigers.

Dad used to say to us kids that to bet on them was safer than putting your money in the First National bank. From what I've seen of 'em, that's about the way I feel about the Yankees, though neither of us is a betting man. Dad wouldn't let any of us—I've got three brothers—even play football. He's a great baseball fan himself. He wanted to make me over into a choke hitter. He said you never strike out if you shorten your bat—but you never get any home runs, either.

My brother Eddie is still a better ball player than I am and I think he was an awful chump to chuck the game and go into business. He's old now—twenty-five. But Charles is crazy about baseball. He's only seventeen years old and is going to try to catch on with Akron this summer and come up through the Yankee farms. Art is just a fifteen-year-old kid in high school, but he weighs 185 pounds already, ten more than I do.

I came up through the softball ranks. There was no hardball at home. But there's no chance to hit in that racket. The pitchers think they have a bad day when they don't fan 20 batters. I bet Nat Rupert has about 1,000 no-hitters to his credit. Hardball's more of a game. Softball isn't exactly a fad. It offers relaxation to thousands of boys.

NOT IN THE BOX SCORE:

BILL KLEM, the Old Master, is one of the few umpires who like to work behind the plate when Bob Feller is pitching. The others say that the kid has so much stuff, even his fast ball takes a funny hop, that it is hard to call them right . . . Carl Hubbell's perfect control makes working one of his games an umpire's pleasure, though. . . . Billy Johnston, youngest of the clan, turns fight promoter with a summer club at Rockaway soon. . . . That eminent sportsman, Tim Mara, is proudly displaying one of the seven honorary gold life membership Elk citations. . . . In addition to being treasurer of the New York Americans (soccer) club, John Kornbluth also is an executive in one of the town's leading department stores. Years ago he helped form the Maccabee Sport club of Chicago and starred for that organization on the soccer pitch.

Two members of the Cincinnati Reds lost minor league batting crowns by a single base hit last season. Phil Weintraub hit .371 for Rochester and was nosed out by Smead Jolley. Joe Dwyer batted .383 for Nashville only to be shaded by Fred Sington. . . Kid Eberfeld, one of the roughest toughest of ballplayers when he performed for the Yankees and other big-time clubs, never wore socks. Draped his knobby knees in ladies' silk stockings instead.

Movies Will Finish Morris' Track Career

Olympic champ Glenn Morris is through so far as amateur track is concerned if he persists in his movie career, according to one of the most eminent A. A. U. officials. Glenn is said to have been ready to take a fling at boxing before he got that Tarzan contract. Incidentally, old-time pugs now doing bits in flickers include Jack Perry, Pittsburgh welterweight; Joe Glick, famed Brooklyn buttonhole maker; Bing Conley, middleweight, Georgie Levine, Brownsville welterweight; Frank Moran, old-time heavyweight, and too many more to be mentioned.

Glenn Morris

Ken Sanbach will not play pro football. The Princeton quarterback will join a Chicago business firm this summer. . . . Eleven of the twenty-two soccer players who competed for the English cup at Wembley stadium, are Scotchmen, four performing for Sunderland and Seven for Preston North End . . . The boyhood ambition of Jimmy Johnston, the Garden boxing gent who so often is tossed to the lions, was to be a lion tamer . . . John Finn, whose dad has been a cop on Brooklyn's hard-bitten Sand street for thirty-one years, has signed to play first base for Altoona. . . The best tip as to whether Lou Chiozza will do for the Giants may be had by watching him protect his foul line. Third basemen who can go to the right the way he does have little else to worry about . . . Pitcher LaMaster, who was drafted by the Phillies could have been had by Brooklyn last summer. Casey Stengel pleaded with the directors to buy him for five G's less than the $15,000 Casey now gets for not managing a second-division outfit.

One of Hank Marino's first bowling pupils was Fritz Crisler. That was when the Princeton football coach was a crack end on Chicago's powerhouse outfit of 1921 . . . Roland Hulshart, a bit of a kid from Bel Air, Md. (your correspondent's own home grounds), may startle sprinting champions within a season or two. . . . Frankie Terranova, New York scrapper knee high to a grasshopper, clicked with Chicago fight fans and will return there . . . Rogers Hornsby's early season batting was no surprise to the Brown's manager. Last summer he confided that American League pitching was so bad that he could hit .300 standing on one leg with one eye shut. . . . Now that they have local fans interested in their Jersey City and Newark farms the Yankees and Giants ought to put International League scores on the Polo grounds.

Additions to the "Like father like son" hall of fame—Eddie Collins Jr., blasting Ivy league pitchers to all corners for Yale; Coach Tuss McLaughry's boy, John, looking like the best prospect on his old man's Brown team; Ted Meredith's youngster running for Mercersburg; Lawson Robertson's kid doing the same for Lower Marion High . . . Even though he'd make as good a man as any for the job, Jack Dempsey should quit yelling that the nation needs a boxing czar. The truth is czars ruin sports just as they do everything else. One way or another they're always protecting special interests and—as any student of commission or one man sports control very well knows—the eventual sufferer is that age-old burden bearer, the average citizen.

Barney Ain, the basketball authority, refereed a game at Sing Sing last winter. One fan, in particular, did not like Mr. Ain's style of officiating. Every time a foul was called on a member of the Lawes university quintet this ardent rooter would yell "Robber!"

Later Mr. Ain, who delights in providing hard-working reporters with rare items, investigated the Sing Sing undergrad's status. Found he was in as a fourth offender. . . burglary.

The last parade of the Grand Army of the Republic at the close of their convention in Washington, D. C., as the aged veterans of the Civil war marched through the streets as they did more than seventy years ago.

DECORATING HEROES' GRAVES

Above, loved ones of brave boys of all wars, placing flowers upon their graves. Below, Boy Scout, marking grave of a soldier.

Stone Lions War Gift.

Two stone lions from the ancient Menin Gate have been placed at Canberra, Australia, the gift of Ypres, France, to the Australian War Memorial museum. Through the historic gate during the World war marched the armies of the British empire, France, the United States and Belgium, fighting in the battles of Ypres.

NAME DUE TO CLOTHES

THE term "butternut" was applied to soldiers of the Confederate army because many of their homespun uniforms were dyed light brown from the shell of the nut.

"Angel of Mons" Story Made Plenty Realistic

THE legend of the miraculous intervention of angelic bowmen under the patron saint of England, St. George, during the British retreat from Mons in August, 1914, was invented by the English author, Arthur Machen. He wrote a story called "The Bowmen" which appeared in the Daily News of London on September 29, 1914. This was an entirely fictitious account of how, during the days when the British were hard pressed by the enemy, an English soldier happened to utter the motto (in Latin): "May St. George be a present help to the English."

Immediately after he had spoken, he saw "beyond the trench, a long line of shapes, with a shining about them. They were like men who drew the bow, and with another shout, their cloud of arrows went singing and tingling through the air toward the German hosts."

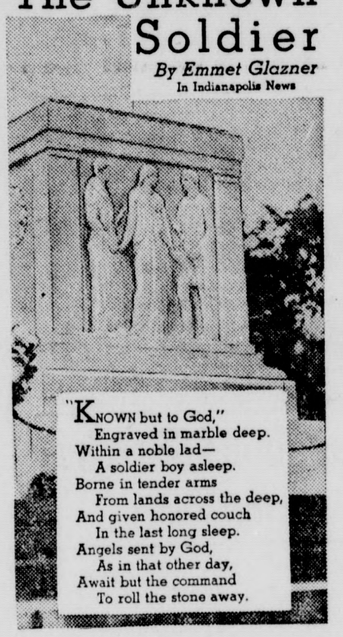
This story was immediately taken up as an authentic record, states a writer in the Detroit News. Soldiers back from the trenches told of it as eyewitnesses.

IN THE DAYS OF 1861

In the North, in 1861, masculine attire developed a strong trend in the direction depicted above. Drawing by Felix O. C. Darley.

The Unknown Soldier

By Emmet Glazner
In Indianapolis News



"KNOWN but to God,"
Engraved in marble deep.
Within a noble lad—
A soldier boy asleep.
Borne in tender arms
From lands across the deep,
And given honored couch
In the last long sleep.
Angels sent by God,
As in that other day,
Await but the command
To roll the stone away.

Nation Pays Tribute to War Dead in Arlington

ARLINGTON National Cemetery just across the Potomac from the Lincoln Memorial is the scene each Memorial day of elaborate but solemn ceremonies honoring America's hero dead. These ceremonies are held in the magnificent Memorial Amphitheater provided through the efforts of the Grand Army of the Republic as a fitting memorial to our soldier dead and a suitable assembly place for the thousands in attendance at the services on Decoration day.

Usually attended by the President of the United States, other high government officials and foreign diplomats, Arlington Decoration day services are to the nation what the local observances are to each community throughout the land, observes a writer in Pathfinder Magazine.

For the benefit of those who have never visited Arlington cemetery and its magnificent Memorial Amphitheater a short description of the circular white marble structure will be interesting. The open-air structure covers an area of 34,000 square feet. In the amphitheater are seats of marble for 5,000 people. Several thousand more can find seats and standing room around the sides. On the stage there is room for several hundred more.

The eastern facade of the amphitheater overlooks the Potomac affording an excellent view of the Lincoln Memorial, the Washington Monument, the new government buildings, the Capitol and the city of Washington. Just across the roadway from the eastern stairway is the Tomb of the Unknown Soldier.

Civil War Men of Note

The Twenty-first regiment of the O. V. I., recruited in northern Ohio at the outset of the Civil war, was noted for the men among its ranks who rose to distinguished heights. Of its recruits, Stanley Matthews became associate justice of the United States Supreme court and Rutherford B. Hayes and William McKinley became presidents.

A GOLD STAR MOTHER

THE Gold Star Mothers' association defines a Gold Star mother as one whose son was killed overseas during the World war or who was killed on the sea while serving in the war.

Fate of Millions Still Unknown

Of the 16,000,000 soldiers and sailors who died or disappeared as a result of the World war, the fate of more than 7,000,000 is still unknown, asserts a writer in Collier's Weekly.

Civil war veteran and the drum he "beat" to aid his comrades to "keep step" as they marched to the bloody battles. With him are members of the Sons of Veterans with their stands of colors.

My Favorite Recipe

By Ann Harding
Actress

Chicken Salad.

1 quart cold chicken
1 pint finely cut celery
3 hard-boiled eggs
2 cupfuls mayonnaise
Small bottle of olives
Salt to taste
Paprika

Joint the dressed chicken and boil until tender. Allow it to cool, then cut into small pieces until the required amount is obtained. Use only the whitest celery, and none with coarse strings. Cut two of the eggs, not too fine. Mix chicken, celery, eggs and seasoning. Allow the mixture to stand with a little French dressing for an hour or more in a cool place. To serve, the mayonnaise may be mixed with the chicken or served as a top dressing, according to taste.

Serve on fresh lettuce leaves. Garnish with slices of the third egg and stuffed olives. Sprinkle with paprika.

Simple Truth

The empty vessel makes the greatest sound.—Shakespeare.

Don't Sleep When Gas Presses Heart
If you want to really GET RID OF GAS and terrible bloating, don't expect to do it by just doctoring your stomach with harsh, irritating alkalies and "gas tablets." Most GAS is lodged in the stomach and upper intestine and is due to old poisonous matter in the constipated bowels that are loaded with ill-causing bacteria.
If your constipation is of long standing, enormous quantities of dangerous bacteria accumulate. Then your digestion is upset. GAS often presses heart and lungs, making life miserable.
You can't eat or sleep. Your head aches. Your back aches. Your complexion is sallow and pimply. Your breath is foul. You are a sick, grouchy, wretched unhappy person. YOUR SYSTEM IS POISONED.
Thousands of sufferers have found in Adlerika the quick, scientific way to rid their systems of harmful bacteria. Adlerika rids you of gas and cleans foul poisons out of BOTH upper and lower bowels. Give your bowels a REAL cleansing with Adlerika. Get rid of GAS. Adlerika does not gripe—is not habit forming. At all Leading Druggists.

Origin of Wickedness

All wickedness comes of weakness.—Rousseau.

HELP KIDNEYS
To Get Rid of Acid and Poisonous Waste
Your kidneys help to keep you well by constantly filtering waste matter from the blood. If your kidneys get functionally disordered and fail to remove excess impurities, there may be poisoning of the whole system and body-wide distress.
Burning, scanty or too frequent urination may be a warning of some kidney or bladder disturbance.
You may suffer nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—feel weak, nervous, all played out.
In such cases it is better to rely on a medicine that has won country-wide acclaim than on something less favorably known. Use Doan's Pills. A multitude of grateful people recommend Doan's. Ask your neighbor!
DOAN'S PILLS

THE GARDEN MURDER CASE

CHAPTER XIV
—19—

I wandered into the den, the door of which was ajar, and walked aimlessly about the room, looking at the various pictures and etchings. Just then Vance entered. As he came in he threw the door open wider, half pocketing me in the corner behind it, where I was not immediately noticeable. I was about to speak to him, when Zalia Graem came in.

"Philo Vance." She called his name in a low, tremulous voice.

He turned and looked at the girl with a quizzical frown.

"I've been waiting in the dining-room," she said. "I wanted to see you before you spoke to the others."

I realized immediately, from the tone of her voice, that my presence had not been noticed.

Vance continued to look squarely at the girl, but did not speak. She came very close to him now.

"Tell me why you have made me suffer so much," she said.

"I know I have hurt you," Vance returned. "But the circumstances made it imperative. Please believe that I understand more of this case than you imagine I do."

"I am not sure that I understand." The girl spoke hesitantly. "But I want you to know that I trust you." She looked up at him, and I could see that her eyes were glistening. Slowly she bowed her head. "I have never been interested in any man," she went on—and there was a quaver in her voice. "The men I have known have all made me unhappy and seemed always to lead me away from the things I longed for . . ." She caught her breath. "You are the one man I have ever known whom I could—care for."

So suddenly had this startling confession come, that I did not have time to make my presence known, and after Miss Graem finished speaking I remained where I was, lest I cause her embarrassment.

Vance placed his hands on the girl's shoulders and held her away from him.

"My dear," he said, with a curiously suppressed quality in his voice, "I am the one man for whom you should not care." There was no mistaking the finality of his words.

Vance smiled wistfully at the girl.

"Would you mind waiting in the drawing-room a little while? . . ."

She gave him a searching look and, without speaking, turned and went from the den.

Vance stood for some time gazing at the floor with a frown of indecision, as if loath to proceed with whatever plans he had formulated.

I took this opportunity to come out from my corner, and just as I did so Floyd Garden appeared at the hall door.

"Oh, hello, Vance," he said. "I didn't know you had returned until Zalia just told me you were in here. Anything I can do for you?"

Vance swung around quickly.

"I was just going to send for you. Everyone here?"

Garden nodded gravely. "Yes, and they're all frightened to death—all except Hammle. He takes the whole thing as a lark. I wish somebody had shot him instead of Woody."

"Will you send him in here," Vance asked. "I want to talk to him. I'll see the others presently."

Garden walked up the hall, and at that moment I heard Burke speaking to Markham at the front door. Markham immediately joined us in the den.

"Hope I haven't kept you waiting," he greeted Vance.

"No. Oh, no." Vance leaned against the desk. "Just in time."

Markham had barely seated himself when Hammle strutted into the den with a jovial air. Vance nodded to him brusquely.

"Mr. Hammle," he said, "we're wholly familiar with your philosophy of minding your own business and keeping silent in order to avoid all involvements. A defensible attitude—but not in the present circumstances. This is a criminal case, and in the interest of justice to everyone concerned, we must have the whole truth. Yesterday afternoon you were the only one in the drawing-room who had even a partial view down the hallway. And we must know everything you saw, no matter how trivial it may seem to you."

Hammle gave in.

"First of all, then," said Vance, without relaxing his stern gaze, "when Miss Graem left the room, ostensibly to answer a telephone call, did you notice exactly where she went?"

"Not exactly," Hammle returned; "but she turned to the left, toward the den. You understand, of course, that it was impossible for me to see very far down the hall, even from where I sat."

"Quite." Vance nodded. "And when she came back to the drawing-room?"

"I saw her first opposite the den door. She went to the hall closet where the hats and wraps are kept, and then came back to stand in the archway until the race was over. After that I didn't notice her either coming or going."

"And what about Floyd Garden?" asked Vance. "You remember he followed Swift out of the room. Did you notice which way they went, or what they did?"

"As I remember, Floyd put his arm around Swift and led him into the dining-room. After a few moments they came out. Swift seemed to be pushing Floyd away from him, and then he disappeared down the hall toward the stairs. Floyd stood outside the dining-room door for several minutes, looking after his cousin, and then went down the hall after him; but he must have changed his mind, for he came back into the drawing-room in short order."

"And you saw no one else in the hall?"

"No. No one else."

"Very good." Vance took a deep inhalation on his cigarette. "And now let's go to the roof-garden, figuratively speaking. You were in the garden, waiting for a train, when the nurse was almost suffocated with bromin gas in the vault. The door into the passageway was open, and if you had been looking in the direction you could easily have seen who passed up and down the corridor." Vance looked at the man significantly. "And I have a feelin' you were looking through that door, Mr. Hammle. Your reaction of astonishment when we came out on the roof was a bit overdone. And you couldn't have seen much of the city from where you had been standing, don't y' know."

Hammle cleared his throat and grinned.

"You have me there, Vance," he admitted with familiar good-humor. "Since I couldn't make my train, I thought I'd satisfy my curiosity and stick around for a while to see

She Gave Him a Searching Look.

what happened. I went out on the roof and stood where I could look through the door into the passageway—I wanted to see who was going to get hell next, and what would come of it all."

"Thanks for your honesty." Vance's face was coldly formal. "Please tell us now exactly what you saw through that doorway while you were waiting, as you've confessed, for something to happen."

Again Hammle cleared his throat.

"Well, Vance, to tell you the truth, it wasn't very much. Just people coming and going. First I saw Garden go up the passageway toward the study; and almost immediately he went back downstairs. Then Zalia Graem passed the door on her way to the study. Five or ten minutes later the detective—Heath, I think his name is—went by the door, carrying a coat over his arm. A little later—two or three minutes, I should say—Zalia Graem and the nurse passed each other in the passageway, Zalia going toward the stairs, and the nurse toward the study. A couple of minutes after that Floyd Garden passed the door on his way to the study again—"

"Just a minute," Vance interrupted. "You didn't see the nurse return downstairs after she passed Miss Graem in the passageway?"

Hammle shook his head emphatically. "No. Absolutely not."

Vance took another deep puff on his cigarette.

"One more thing, Mr. Hammle: while you were out there in the garden, did anyone come out on the roof from the terrace gate?"

"Absolutely not. I didn't see anybody at all on the roof."

"And when Garden had returned downstairs, what then?"

"I saw you come to the window and look out into the garden. I was afraid I might be seen, and the minute you turned away I went over to the far corner of the garden, by the gate. The next thing I knew, you gentlemen were coming out on the roof with the nurse."

Vance moved forward from the desk against which he had been resting.

"Thank you, Mr. Hammle. You've told me exactly what I wanted to know. It may interest you to learn that the nurse informed us she was struck over the head in the passageway, on leaving the study, and forced into the vault which was full of bromin fumes."

Zalia Graem was the first to enter the den. She glanced at Vance appealingly and seated herself without a word. She was followed by Miss Weatherby and Kroon, who sat down uneasily beside her on the davenport. Floyd Garden and his father came in together. Miss Beeton was just behind them and stopped hesitantly in the doorway, looking uncertainly at Vance.

"Did you want me too?" she asked diffidently.

"I think it might be best, Miss Beeton," said Vance. "We may need your help."

At that moment the front door bell rang, and Burke ushered Doctor Siefert into the den.

"I just got your message, Mr. Vance, and came right over." He looked about the room questioningly.

"I thought you might care to be present," Vance said, "in case we can reach some conclusion about the situation here. I know you are personally interested. Otherwise I wouldn't have telephoned you."

"I'm glad you did," said Siefert blandly, and walked across to a chair before the desk.

Vance lighted a cigarette with slow deliberation, his eyes moving aimlessly about the room. There was a tension over the assembled group.

The taut silence was broken by Vance's voice. He spoke casually, but with a curious emphasis.

"I have asked you all to come here this afternoon in the hope that we could clear up the very tragic situation that exists."

He was interrupted by the startling sound of a shot ominously like that of the day before. Everyone in the room stood up quickly, aghast at the sudden detonation. Everyone except Vance. And before anyone could speak, his calm authoritative voice was saying:

"There is no need for alarm. Please sit down. I expressly arranged that shot for all of you to hear—it will have an important bearing on the case . . ."

Burke appeared at the door.

"Was that all right, Mr. Vance?"

"Quite all right," Vance told him. "The same revolver and blanks?"

"Sure. Just like you told me. And from where you said. Wasn't it like you wanted it?"

"Yes, precisely," nodded Vance. "Thanks, Burke."

The detective grinned broadly and moved away down the hall.

"That shot, I believe," resumed Vance, sweeping his eyes lazily over those present, "was similar to the one we heard yesterday afternoon—the one that summoned us to Swift's dead body. It may interest you to know that the shot just fired by Detective Burke was fired from the same revolver, with the same cartridges, that the murderer used yesterday — and from about the same spot."

"But this shot sounded as if it were fired down here somewhere," cut in Siefert.

"Exactly," said Vance with satisfaction. "It was fired from one of the windows on this floor."

"But I understand that the shot yesterday came from upstairs." Siefert looked perplexed.

"That was the general, but erroneous, assumption," explained Vance. "Actually it did not. Yesterday, because of the open roof door and the stairway, and the closed door of the room from which the shot was fired, and mainly because we were psychologically keyed to the idea of a shot from the roof, it gave us all the impression of coming from the garden."

Zalia Graem turned quickly to Vance.

"The shot yesterday didn't sound to me as if it came from the garden. When I came out of the den I wondered why you were all hurrying upstairs."

Vance returned her gaze squarely.

"No, it must have sounded much closer to you," he said. "But why didn't you mention that important fact yesterday when I talked with you about the crime?"

"I— don't know," the girl stammered. "When I saw Woody dead up there, I naturally thought I'd been mistaken."

"But you couldn't have been mistaken," returned Vance, half under his breath. "And after the revolver had been fired yesterday from a downstairs window, it was surreptitiously placed in the pocket of Miss Beeton's top-coat in the hall closet. Had it been fired from upstairs it could have been hidden to far better advantage somewhere on the roof or in the study." He turned again to the girl. "By the by, Miss Graem, didn't you go to that closet after answering your telephone call here in the den?"

The girl gasped.

"How—how did you know?"

"You were seen there," explained Vance.

The girl turned back to Vance with flashing eyes.

"I'll tell you why I went to the hall closet. I went to get a handkerchief I had left in my handbag. Does that make me a murderer?"

"No. Oh, no." Vance shook his head and sighed. "Thank you for the explanation . . . And will you be so good as to tell me exactly what you did last night when you answered Mrs. Garden's summons?"

(TO BE CONTINUED)

CALIFORNIA
News of the Week

Fort Tejon To Be Restored

Sacramento.—The Assembly passed a resolution directing the Department of Natural Resources to restore old Fort Tejon, on the Ridge Route between Bakersfield and Los Angeles, as a memorial park and historical museum.

Road Deaths Rise 43 Per Cent

Bakersfield. — Increasing 43 per cent over the record for a similar period last year, forty persons were killed in the first four months of 1937 on Kern highways. Fifty per cent of the traffic fatalities during April, which amounted to twelve, were directly due to drunk driving.

Hearst Buys McCloud River Land

Redding.—A deed filed with the County Recorder here revealed the purchase of 9,770 acres of land near the McCloud River by William Randolph Hearst from the Southern Pacific Company. Revenue stamps attached to the deed indicated the purchase price was around $60,000.

Flames Hit Tahoe Resort

Tahoe City.—The Camp Richardson dining-room and kitchen building was destroyed by an early morning fire, with loss estimated at $20,000. The camp hotel and store building burned to the ground six months ago and new structures are nearing completion.

Capture Freak Coyotes

Alturas.—Floyd McTimmons, biological survey worker, has a bob tailed coyote. The freak was captured in a den near Dry Lake along with two other freaks, two spotted coyotes. Dogs had killed the spotted animals, but the bob tailed one is being held for observation by the survey. It is thought the animal is part dog, as bob tailed or spotted coyotes are rare.

Long Beach Bans Hitch-Hiking

Long Beach. — Hitch-hiking has just been made illegal in Long Beach, following robbery of a local motorist who had picked up a thumb-jerking walker. Numerous "good samaritans" have been held-up at gun point in return for their generosity and many pedestrians have met with the same fate after accepting rides from strange motorists, it was reported by officials.

Anti-Racing Group Incorporates

Sacramento.—The California Association Against Horse and Dog Racing has filed articles of incorporation with the Secretary of State. The supporters of the movement include a group of Los Angeles merchants, who contend that race track gambling is "morally and economically destructive and should be abolished." Accompanying the articles of incorporation was a petition containing 186,378 signatures.

S. F. Waterfront Fire

San Francisco. — A spectacular waterfront fire destroyed a pier and in three hours time did damage estimated at $200,000. Four hundred firemen and 42 fire engines—almost the entire fire fighting force of the city — were summoned by four alarms. They were aided by three harbor fireboats, the coast guard cutter Tahoe and two navy mine sweepers. More than 100 firemen were overcome by smoke and treated for burns.

State Leads in Pleasure Cars

Sacramento.—California leads the entire nation in the number of pleasure automobiles in use, according to Howard E. Deems, State registrar of motor vehicles. Due to the huge increase in cars it has become necessary to issue a new type of license plate. The regular type of plate with two letters of the alphabet side by side and six numbers has been exhausted and under the new new plan letters will be placed one over the other. The number of pleasure cars licensed this year is expected to reach 2,300,000, an all-time high record in California as well as in the nation.

Central Valleys Given $12,500,000

Washington.—California's Central Valleys Project is awarded $12,500,000 of new funds in the interior department money bill for the next fiscal year. The commiteee, however, tied a string to the new appropriation with this clause: "Provided, that no part of this appropriation shall be available for the construction of such project until it is determined by the secretary of the interior, upon approval as to its legality by the attorney general, that the authorization has been approved by an act of congress."

Discovers Oil in Back Yard

Wilmington.—Joseph A. Weldt, 70, has discovered riches right in his own back yard. An oil well he sank on his home lot here struck "flowing gold" and is producing 1000 barrels a day.

Aircraft Workers Get Pay Boost

San Diego.—More than 3800 employees of the Consolidated Aircraft plant will receive wage increases totaling $685,000 annually, Major Fleet, president of the corporation, announced.

War of Antibodies and Antigens Told by Immunologist

Defensive Mechanism of the Body is Complex

Chicago.—A glimpse into the ultra-world of molecules where the antigens of invading disease germs are fought by antibodies, police of physiology's realm, was given here by Dr. Sanford B. Hooker of Boston in the presidential address before the American Association of Immunologists.

The defensive mechanism of the body is a complex of invisible physical and chemical forces and Dr. Hooker, reviewing current researches in a difficult field, gave his fellow medical scientists a picture of the important antibody or germ fighter. It is considered to be a kind of protein molecule formed by certain body cells when influenced by the antigen—evil stuff created by germs such as the toxin or poison of the diphtheria bacillus.

This protein molecule, called antibody globulin, is different from other globulin molecules. It has, probably at the surface of each molecule, specific combining groups. The antigen molecule, formed by the bacteria, also has combining groups at its surface. The union of these two is important in producing immunity or resistance to disease.

Patterns of Binding Points.

Antigen molecules have many combining groups, not necessarily of the same kind. Antibody molecules, formed by the body's cells, have each only one or a relatively few combining groups. The combining groups are thought of as more or less complex patterns of binding points. Those on the antibody molecule are distributed in a pattern that is the mirror image of the binding point pattern of antigens. And the antibody binding points have electrical charges which are the opposite of those carried by the antigen binding points.

One kind of combining group, it is assumed, must contain at least three properly adapted points which differ from those of another kind of combining group in atomic nature, spacing and sign and strength of electric charge.

Master-Key Antibody Molecules.

A single kind of antigen combining group, if sufficiently complex, may call forth somewhat different kinds of antibody. The perfect "master-key" antibody would be those which most faithfully and completely reflect the physical characters which determine the specificity of the antigen. Such antibody molecules would have binding points which could unite effectively with the antigen binding points and neutralize the evil power of the antigen.

"The same antiserum," Dr. Hooker said, "may contain grades of more imperfect and dissociable antibodies extending to the poorest kind whose pattern is so incomplete as to have the least affinity permissive of any recognizable association with antigen."

The more of these high-grade antibodies in an antiserum, the more effective will be the serum in protecting against disease.

Combating Disease and Decay With Rays of the Sun

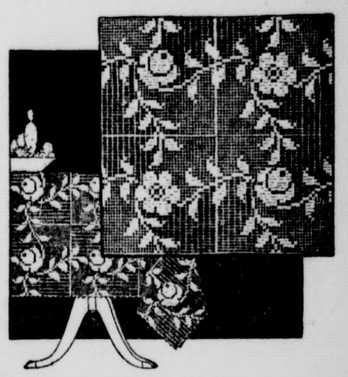
Toronto.—The day when man will fight and conquer micro-organisms of disease and decay with the sun's rays or their laboratory-made equivalent seems to be drawing near. Steps already taken in this direction were described by A. R. Dennington of the Westinghouse Lamp company at the meeting here of the Canadian section of the American Institute of Electrical Engineers.

Sunlight can kill micro-organisms even when its ultra-violet and infrared rays are filtered out, Mr. Dennington explained. The rays of shorter wavelengths, from 2,537 angstroms down, are the most effective at germ-killing.

Such rays harnessed in a lamp which has an extremely thin indrawn window or glass bubble are already being used, Mr. Dennington said, by physicians to destroy the germs of skin infections. At the opposite extreme of medical use are the eight sterilizing lamps installed over the operating table at Duke university hospital to sterilize air during surgical operations and thus prevent wound infections.

Dinner Cloth of Crocheted Lace

Dress up your table, when company's expected, with this stunning lace cloth. Crochet either identical squares, or companion squares—they're easy fun, and either way makes a handsome design as shown. Crochet them of



Pattern 1410.

string and they'll measure 10 inches; in cotton, they are 6½ inches. Join together, for tea or dinner cloth, spread or scarf. Pattern 1410 contains directions and charts for making the squares shown; illustrations of them and of all stitches used; material requirements.

Send 15 cents in stamps or coins (coins preferred) for this pattern to The Sewing Circle Needlecraft Dept., 82 Eighth Ave., New York, N. Y.

Write your name, address and pattern number plainly.

Uncle Phil Says:

Could We But Hear—

We laugh over the "private lives" of the ancients. What will posterity think is the funniest about ours?

It is softies who object to critics. Criticism — good criticism — is what there is not nearly enough of. But there are overwhelming oceans of gush. A good scold is preferable to a smearer of molasses.

A woman with little money, but much taste, will make a small, shabby house into "a vineclad cottage."

A Rare Privilege—

If a man should say to us, "I want to be perfectly frank with you," there are only one or two men whom we would allow to go on.

We realize what an offense swearing is when a woman indulges in it.

Some one said long ago that "Today's crisis will be tomorrow's joke." Strikes us that the funny paragraphers have been making jokes about today's crisis right along.

VACATION TIME

True, it is not quite June yet, but already the head of many a household is sneaking into the basement occasionally to tinker with his fishing tackle, and maybe surreptitiously looking at a road map once in a while.

You know what that means. It means summer will soon be here, and with it vacation time, when people leave tedium and work behind for a week or two at the beach or in the quiet mountain woods.

Vacations have always been regarded as one of mankind's most pleasing inventions. But in this modern era when the tempo of life is keyed to a fever pitch most of the time, they have become an institution as vital to the health and well-being of a nation as food and fruitful labor.

Some expert ought, sometime, to make available to the American public a treatise on "How to Vacationate." He might begin by reminding us that 300,000 Americans die each year of heart disease, and that one of the reasons is insufficient relief from living in a veritable farrago of jangling phones, screeching brakes, quick lunches and little irritants.

POINT SAN PEDRO ROCKAWAY BEACH

News of the week—the fine buses rolling on the highway following the new ownership of the Coastside Transportation Company and the encouraging gossip about an improved service. The former company has made many friends along the coast villages by its neighborly attitude and that of its drivers toward those who hailed the buses and climbed in for rides to town. But there's always room for improvement, and there is eager anticipation among the local residents at Pedro and its Valley, Rockaway and its Canyon and all the scattered ranch dwellers hereabout as to the plans of the new ownership, the greater convenience of new vehicles, better time schedules and—last but not least—an expectation of lower fares and express rates.

* * *

The local shudder of the past week was, of course, the finding of a headless body at the base of the cliffs just beyond the south end of Shelter Cove. A story which made the front page banner head Monday of this week in the San Francisco newspapers.

* * *

A worthy citizen of Cliffton avenue got up early last Sunday morning and went out to his flagpole to greet the day by raising the national flag. But whether he was still a bit drowsy or something went amiss is not known. Along came a neighbor and flung the question, "Are you a Communist, flying the flag upside down?" The worthy citizen blinked, stared and sprang forward. The flag came down so fast it almost singed the pole. When it flew again from its mast it was right side up.

* * *

Members of the graduating classes of the Rockaway school, '34 and '35, had a get together Friday evening of last week at Shelter Cove. Several parents and friends were present. Everybody had a good time dancing to the music played by the skillful accordionists, Frank Bull and Russell Lewis. There was a big bonfire on the beach, kindled by the juniors. Delicious refreshments were served. Mrs. Peter Haugaard sang a popular melody to the accompaniment of the accordions and afterward danced a graceful "pas seul" that was enthusiastically applauded.

Guests present were: Misses Florence and Annabelle Troglia, Marion and Rosemary Rich, Valerie Horan, Hazel Haugaard, Jannie Powers, Marian Laurence, Sonia Boundford, Marilyn Lewis; Messrs. Jack Rich, Ted Cuppman, Stanley and Nathan Blum, Frank Bull, Lyman Louis, Russell and Bob Lewis. Beside the junior group there were Mesdames Wallace, Bicknell, Haugaard, Turvey, Lewis; Jim Troglia and George Lewis. The affair was entirely informal, the invitations having been given verbally, passed on from one to another of the two graduating classes and their parents and friends shortly before the party.

* * *

Short lengths: Oliver Baker, foreman of the workers on the new highway, stepped on a nail that protruded from a timber of the Pedro bridge, sustaining a bad wound, the nail nearly penetrating the foot. He's limping around gamely, still on the job. The Peter Haugaards drove to Watsonville and back Monday of this week. Mrs. William Bailey got a letter from her 85 year old mother, who is visiting in San Diego, telling that she had just had her first permanent wave. W. W. Shawk of Los Angeles is visiting his parents, Dr. and Mrs. Shawk, at Rockaway. Mrs. Becky Johnson has come from San Francisco to spend the summer at her home in Pedro. The Barnes, who are building on Cliffton avenue, lost their bulldog last Sunday. The Roddy water pipes are being extended up the hill to the David Clark cabin.

SHIP HISTORY—A PICTURE AND MUCH SEA SALT

Art Glass Window Originally Made For Exposition Now At Shelter Cove

An interesting story of a ship was related recently on the shipping page of the San Francisco Chronicle when an old time picture of the Matson Navigation Line was printed and some almost forgotten history recalled. The picture was that of the brigantine Lurline, named for the wife of Capt. William Matson.

Built fifty years ago, she was considered one of the best vessels of her day. The Chronicle notes the proud fact that due to the super excellence with which she was built to the captain's order, by Matthew Turner of Benicia, the Lurline could carry double freight on her voyages from San Francisco, her home port, to the Hawaiian Islands.

And here comes a sequel to the story that links it with a notable spot on the coastside, Shelter Cove, Point San Pedro.

THE STORY

The snow white sails and trim rigging of the Lurline was a familiar sight to the islanders who eagerly watched for her coming. The Hawaiians thought so much of the brigantine that years after she had been replaced by modern steamers of the Matson Line, the memory of the old Lurline still lingered in the islands. When they were planning the Hawaiian Building at the Panama-Pacific Exposition at San Francisco in 1915, they had an art glass window, 5 by 10 feet, picturing the Lurline sailing along the coast of Hawaii in full color, the graceful white hull bright against the green shore and the tropic blue sky over all.

Later the window was secured by George Lewis of Shelter Cove, where it is now on display, built in the end wall of the new Shelter Cove store. There, on a sunny day, the old brigantine can be seen cutting along the coast of Hawaii as in the old days of sailing ships.

Golden Gate Bridge is the only span in the United States whose terminals lie between two forts of the United States. The Presidio is on the San Francisco side and Fort Baker on the Marin end.

Reunion Brings Joy to Noted Barytone and Mother

Reunited in San Francisco are John Charles Thomas, noted barytone, and his mother, Mrs. Cora Thomas, of Towson, Md., to whom the singer invariably says "Goodnight, Mother," at the end of every radio broadcast. Mrs. Thomas made the trip from the East in order to hear her son sing as featured artist in the forthcoming fiesta that will mark the opening, May 27, of the Golden Gate Bridge.

BIGGEST AUDIENCE

John Charles Thomas, celebrated American baritone, has sung to many more than 25,000 persons at one time, but that has been over the radio. When he sings at the Pageant in the Redwood Grove Theater in Crissy Field during the Golden Gate Bridge Fiesta, at San Francisco May 27 to June 2, there will be seating accomodations for 25,000 and all will be within the range of his marvelous voice.

Zephyr Last Word In Stream Lining

Having definitely established the Lincoln Zephyr as the ultra in smart streamlining, its engineers and designers were not content to rest on past styling laurels.

As a result, visitors to the showrooms of the local Zephyr dealer, are lavish in their praise of the Lincoln Zephyr for 1937 and its creators.

The new Zephyr presents a substantially smarter appearance and features pleasing improvements in interior treatment.

The most completely stream lined car built in production volume, the frontal appearance of the "first anniversary" series of the Lincoln Zephyr V-12 has been refined. The distinctive sharp nosed radiator grill, with horizontal decorative strips of bright chromium, is topped by a flying wing ornament. Chromium strips also lend a striking outline to the hood louvres. Carrying out the new trimness of appearance, a body stripe is carried across the length of the car just below the belt line.

The interior of the car gives the effect of a cozy lounge with its smart new fittings. Deep divan seats are trimmed in a new pleated design. Upholstery is either broadcloth or cord. Door panels are bordered with narrow chromium strips. An outstanding feature of the 1937 Lincoln Zephyr interior is the instrument panel to the top of the transmission housing.

CONDUCT SYMPHONY

Rudolph Ganz, one of the foremost pianists of the world, recording artist and president of the Chicago Musical College, will conduct the San Francisco Federal Symphony on Monday of next week, according to arrangements completed recently by the California music state director.

Visitacion and Bayshore News

FINAL SCHEDULE IS SET UP FOR VALLEY FIESTA

Celebration Most Colorful Ever To Be Held Here Committees Forecast

(Continued from page 1)

march, many prizes. This event will be a fitting climax for the Visitacion fiesta.

DECORATIONS

Street and home decoration plans are well in hand in the Valley. Streets will be festive with gay banners from the county line to the area directly past Tunnel avenue. The goal of the committee is to have every home in the Valley decorated with at least the American flag.

The general fiesta committee will send a colorful troupe of troubadours and accordion artists to invite the people of Brisbane, Bayshore and Portola to join in the festivities at Visitacion Valley next week. A tentative date was set for this parade, possibly Wednesday of next week.

The Visitacion Valley Community Fiesta executive committee, which has worked so tirelessly to make the fiesta a success, includes: Mrs. J. F. Calverley, general chairman; Mrs. William Nutter, Mrs. E. Wikse, Miss Gertrude A. White, Mrs. Mary Baumann, A. J. Nardi, Mrs. Ethel Cramer, Fred Dettmering, Miss Florence Friedman, Mrs. Florence Allen, Charles A. Louis, Rev. C. A. Dransfeld, Rev. Andrew Szilagyi, Mrs. Edward J. Armanino, Albert H. Boynton, Mrs. F. J. Olson, Fred Enderlin, Charles H. Eisenhut. George Allen, president of the Visitacion Improvement Club, is general manager of the fiesta for the Valley.

Mameluke Sword Still Corps Weapon

Few military weapons have survived the march of time with so few changes as the Mameluke sword, a distinctive blade worn by officers of the Marine Corps. Nowadays it is no longer a weapon, as the evolution of warfare has figuratively turned all swords into ploughshares.

But the Mameluke still remains as a side arm of the sea soldiers and is displayed at parades or ceremonies, or worn for formal military affairs. It is a reminder of the fighting Mamelukes, after whom it is named, and who were prominent in Egyptian military history for more than 500 years.

In revolutionary days Marine Corps officers apparently used any type of sword they preferred, or could secure. It was not until 1804 that the secretary of the navy issued orders for a yellow mounted sabre to be carried by officers of the corps, and numerous changes from the original specifications have since been made.

Mameluke swords are first mentioned in the corps uniform regulations in 1825 and the sword appears to have been worn thereafter for about 30 years. Then the sea soldiers adopted the army type of weapon, returning in 1875 to the Mameluke pattern, virtually the same as that worn by them today.

Topped with a Mameluke grip which is fashioned somewhat like that of an old fashioned duelling pistol, the sword has a rather thin, slightly curved blade, 28 to 32 inches long, with a straight cross guard. The name of its owner as well as the words "United States Marines" are usually inscribed on its blade.

Legion Head Tours Coast

Mrs. Oscar W. Hahn

Mrs. Oscar W. Hahn, national president of the American Legion Auxiliary, who will be honored at reception given at Los Angeles, San Francisco and Stockton, Cal., on May 25, 26 and 27, respectively. Representing 420,000 women, she is on a national tour of state departments of the Legion Auxiliary.

Parents Assembly Luncheon At Center

Parents Assembly held their monthly luncheon Wednesday of this week. An unusually large group was in attendance and the new officers for the year 1937-38 were introduced. They include: President, Mrs. Mary Ashton; vice president, F. Seiberlich; secretary, Mrs. Gertrude Kilger; treasurer, Mrs. Nina Shaw. Chairmen who will assist with the work this year are: Music and choral, Mrs. Danish; nursery school and health, Mrs. E. Neal; whist, Mrs. L. Pauli; social, Mrs. Charles Eisenhut; education, Mrs. M. Baumann; dramatics, Mrs. Barr; adviser, Miss F. Friedman.

The luncheon was dedicated to the Visitacion Valley Community Fiesta. Almost everyone was in costume for the occasion. Senorita, colonial and Japanese costumes lent a brilliant touch of color to the affair. A musical program and the act of a clever ventriloquist added enjoyment for all. Stanley Halsted of the San Francisco citizens fiesta committee attended the luncheon to wish success to the Valley group.

Mrs. Frieda Anderson won the door prize for the best costume. Mr. Nardi, manager of the local bank, presented the prize. A whist party followed the luncheon and program.

Center groups are all actively engaged in preparation for the community fiesta. Boys, girls, men and women are all doing their part to make the Visitacion Valley fiesta a huge success.

NATIONS MEET

Chinatown, the Italian quarter nestling round Telegraph Hill and Fishermen wharf and all the other foreign sections of cosmopolitan San Francisco will be decorated in festive raiment for the Golden Gate Bridge Fiesta, May 27 to June 2.

ACTIVITIES ARE ANNOUNCED FOR BAYSHORE CITY

Costume Ball, Parade And Contests Are Features Of Celebration

(Continued from page 1)

union orchestra for the event. A feature of the program will be a balloon dance.

May 30—Grand parade with all civic organizations, merchants, school children, merchants of Brisbane, Brisbane Girl and Boy Scouts, Brisbane school children, Brisbane and Bayshore Fire Departments and Brisbane and Bayshore local and county officials participating.

The parade, which is scheduled to start at 1 p. m., will be followed by an afternoon of races and drills. Bayshore and Brisbane Fire Departments will engage in a tug of war.

MEMORIAL

At sundown a flag will be lowered in memory of C. L. Lindross, former resident of Bayshore, who lost his life while working on the Golden Gate Bridge. Bayshore American Legion, Bayshore Girl Scouts and Brisbane Boy Scouts will officiate.

After an intermission for dinner the program will resume with a concert and entertainment including a community sing. Freddie Thornton will conduct.

A fitting finale to the day will be the setting of the traditional bonfire. Fireworks will also add to the display. One of the most colorful of the features will be a Wild West exhibition staged by Ed Schwerin and his McLaren Park cowboys. Bayshore extends a cordial invitation for everyone to join in the activities.

BAYSHORE NEWS

Mrs. Julia Marshall and her brother will leave today for the East for a visit. They will be gone for a month.

* * *

Two carloads of ladies from the Bayshore P. T. A. attended the district card party yesterday.

* * *

The children of the Bayshore School and their mothers and teachers enjoyed a picnic at Golden Gate Park Wednesday of this week. A special street car carried the picnicers to their destination, where picnic lunches, merry go round rides, swinging and sliding were the order of the day.

* * *

The Bayshore Fire Department will soon have a new piece of equipment in its fire house. At a special meeting, held Monday of this week, the board negotiated for a Ford chassis to replace No. 2. All equipment tanks from the old truck will be transferred to the new. A complete first aid kit, coats and hats will be a part of the equipment.

* * *

The firemens dance, held last Saturday evening, was an outstanding success. Arley King, chairman of the dance committee, reports the treasury replenished by approximately $200.

* * *

Mr. and Mrs. G. N. Andersen will go to Fresno over the weekend on business. They will be gone four days.

* * *

Due to the absence of Mrs. Jones, trustee, the regular meeting of the Visitacion School District was held today instead of at the regular time.

GUEST SPEAKER

President Ray Lyman Wilbur of Stanford University has been named as the commencement speaker at the San Mateo Junior College graduation exercises which will be held June 10. At that time 218 students will receive diplomas at the woodland outdoor theater in Hillsborough.

Chief and Mrs. Williams, Mr. and Mrs. Jim Cox and Bobby and Arley King spent last Sunday at Half Moon Bay picnicking.

Dress Up Your Home For Spring

There Is A Special
FULLER PAINT
Made For Every Painting Job

FULLER WASHABLE WALL FINISH
A beautiful velvet-like paint for walls or ceilings of plaster or wallboard. Can be stippled if desired.

FULLERGLO
A semi-gloss enamel with a satin-like finish. A durable finish easily applied and easily washed. Suitable for use in any room but particularly useful in kitchens and bathrooms on acount of its washable surface.

CONCRETA
A protective and decorative paint for stucco, concrete, and brick. Remarkably durable — made to resist caustic action of lime.

SPEEDITE
A quick-drying interior varnish. Speedite combines the desirable characteristics of most good interior varnishes, therefore it may be termed an all-purpose interior varnish for floors, woodwork, and furniture. Speedite dries dust-free in three hours and hard enough for use in five to seven hours.

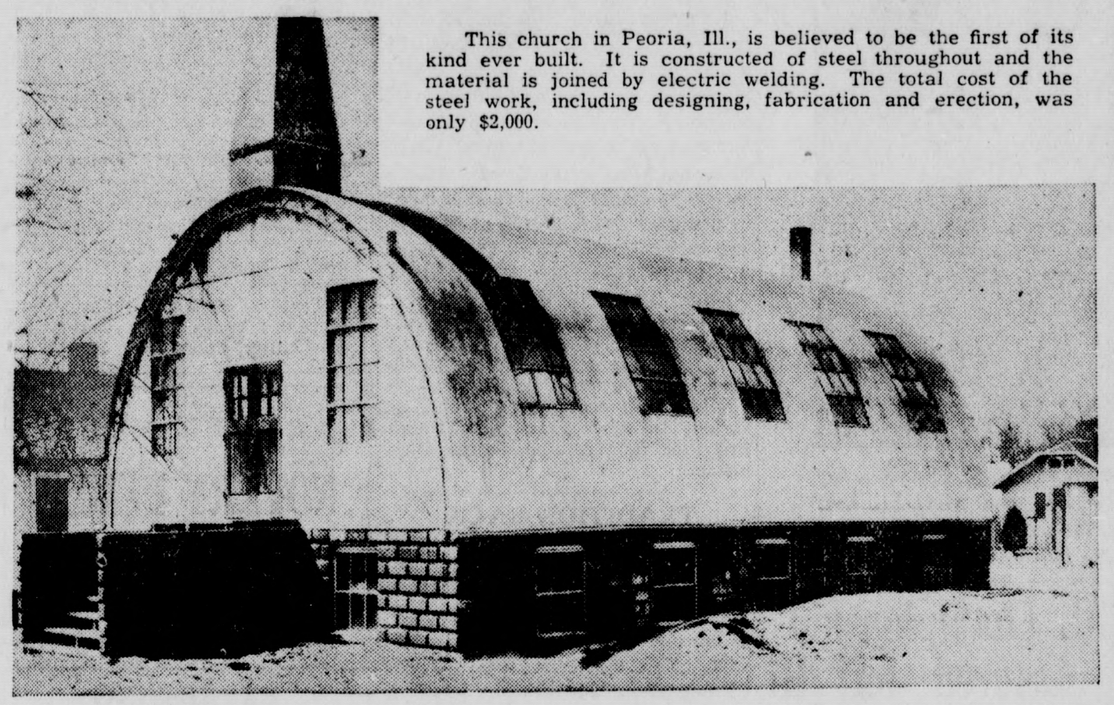
First Electric Welded Steel Church



This church in Peoria, Ill., is believed to be the first of its kind ever built. It is constructed of steel throughout and the material is joined by electric welding. The total cost of the steel work, including designing, fabrication and erection, was only $2,000.

Bedtime Story for Children

By THORNTON W. BURGESS

PETER RABBIT GETS HIS WISH

JUMPER THE HARE, who is Peter Rabbit's big cousin and had come down from the Great Green Forest, had seen very little of Peter lately because he disliked to leave the Green Forest, and ever since he had seen those strange tracks deep in the Green Forest Peter had kept close to the dear Old Briar Patch. So Jumper had not heard Peter's story, which nobody believed and about which ev-

"I—I Knew You Wouldn't Believe Me. Nobody Does," Said Peter Sadly.

erybody teased Peter whenever they saw him. One moonlight night Jumper took it into his head to visit his cousin and find out why he had been keeping so close to the dear Old Briar Patch.

First making sure that the way was clear, for Jumper is very, very timid, he scampered across to the Old Briar Patch as fast as his long legs could take him and was quite out of breath when he got there. He found Peter sitting under a bramble bush looking quite as miserable as he felt.

"Hello, Cousin Peter! Where have you been keeping yourself lately? I haven't seen you or your tracks in the Green Forest for days and days. Are you sick?" asked Jumper.

"No," replied Peter shortly, "I'm not sick, but I guess I will be if this keeps up much longer." Peter looked very glum and unhappy.

"If what keeps up?" asked Jumper, looking very much puzzled.

"Having everybody make fun of me every time I show myself, and nobody to believe what I say," replied Peter.

Jumper looked more puzzled than ever. "That is bad, Cousin Peter," said he. "It's bad enough to be made fun of. I know all about that. Everybody makes fun of me because I have such long legs and because I am so timid. I've grown used to it now, but still I don't enjoy being laughed at. But it's a whole lot worse not to have people believe what you tell them. I had a whole lot rather have people laugh at me than to say the things they do about Sammy Jay. No one believes him even when he does tell the truth, and that's perfectly dreadful."

"I know it," said Peter mournfully. "That's the trouble with me now. I've been telling the truth and no one believes it. Now they never will believe anything I say, and they'll think of me just as they do of Sammy Jay, and say the same dreadful things about me."

"But what is it that they don't believe? You haven't told me," insisted Jumper the Hare.

"I—I—don't want to tell you because probably you won't believe me either," replied Peter. Now, this wasn't quite true. At least part wasn't. He did want to tell. He fairly ached to tell. But he was afraid that Jumper wouldn't believe his story. But after Jumper had solemnly promised that he would believe, no matter how hard it was to, Peter told him all about his visit to the deepest part of the Green Forest and about the great big strange tracks he had found there in the snow—tracks as big as Farmer Brown's boy's, only different, and showing the marks of great claws.

Jumper had pricked up his long ears at the mention of those strange tracks, and now he was sitting up very straight and staring at Peter with his eyes very wide open.

"I—I knew you wouldn't believe me. Nobody does," said Peter sadly.

"But I do!" cried Jumper. "I've seen tracks just like those lots and lots of times way off in the Great Woods where I came from. I was just surprised that there should be any down here in the Green Forest. Of course I believe you, Cousin Peter. I think I will go see them for myself. It's a long time since I have seen any."

"Oh, I'm so glad!" cried Peter happily. At last his wish had come true—he had found some one to believe him. He was so happy over it that he quite forgot to ask Jumper who could have made the strange tracks.

Printed House Coat

When you fix hubby's breakfast this summer, you might wear this smart printed house coat, fashioned on peasant lines with its fulled skirt and tight basque. When hubby leaves, and you're ready for your sunbath, zip the zipper down the front of the housecoat, and you're all set in matching play shorts.

THE DIAL OF LIFE

By DOUGLAS MALLOCH

WE FIND it easy to forget
The songs we heard, the smiles we met,
We find it easy to remember
The faithless friend, the fading ember.
Yet memories are things to choose,
This to recall and that refuse,
Make each delight or each disaster
Either our servant or our master.

Yes, we who turn the dial of life
Need not remember care and strife,
The tawdry tune, the tinny meter,
For there are other programs sweeter.
We know that other things life has
Than jumbles of discordant jazz.
We turn the dial, and very near it
Pick up a tune that lifts the spirit.

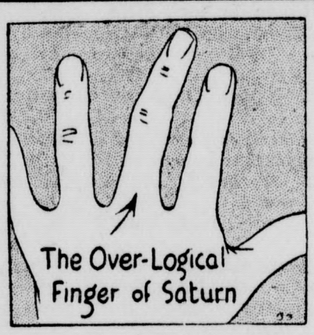
And thoughts are things we may control
To help or hurt the listening soul.
Tune out the sad, tune in the pleasant,
Tune out the past, tune in the present.
Yes, so may one control the mind,
Tune out the mean, tune in the kind,
Old ills forgetting and forgiving,
Only the lovely things re-living.

© Douglas Malloch.—WNU Service.

THE LANGUAGE OF YOUR HAND

By Leicester K. Davis

© Public Ledger, Inc.



OCCASIONALLY one meets a man or woman who seems to delight in applying elaborate rules of reasoning to practically everything in life. And yet despite this ceaseless analyzing, such an individual never seems to get much accomplished. The reason, of course, is that so much mental effort and time are consumed in the dissection of whys and wherefores that initiative and action which get things done are bound to suffer.

Look carefully at the second finger of such a person and very likely you will find the characteristics which this lesson points out.

The Overlogical Finger of Saturn.

Excessive length and leanness, protruding knotty knuckles and absence of flexibility are the outstanding indications in this type of second finger.

With the fingers extended and pressed together such a finger of Saturn will be found to have far greater length than that of the forefinger, which sometimes seems quite dwarfed by comparison. The spaces between the knuckles seem disproportionately long. The nail is usually narrow or "pinched" in form and is often deeply set.

A second finger of this type usually inclines toward the forefinger when the hand is extended.

One may look for hyperlogical mentality with second fingers of this type, one that is likely to carry logic far beyond normal bounds, and in business particularly one that frequently argues away possibilities of profit from ventures which are real opportunities.

FIRST AID TO THE AILING HOUSE

By Roger B. Whitman

PREVENTING PAINT FROM PEELING

A FRIEND recently wrote me of trouble with peeling paint:

"On the east wall of my house there is a small window of a bathroom with a flat frame four inches wide. The surface is practically flush with the stucco. Within two years after that frame was painted for the first time, the paint began to peel, and it has continued to peel after each repainting."

He wants to know where the trouble lies; why paint should peel on that particular window frame, and nowhere else.

The most usual cause for the peeling of paint is moisture in the wood. On a dry and warm day, the moisture is drawn out through the surface and breaks the paint away from the wood. With this in mind, my friend's problem is to find out how moisture gets into the wood. Until he does so, paint on that frame will continue to peel.

One possibility is that moisture enters the wood from inside. Being a bathroom window, steam and moisture in the room air may easily be responsible. In that case much or all of the trouble can be averted by giving all of the inside parts of the window two coats of high quality spar varnish, or one coat of aluminum paint followed by spar varnish or enamel.

As the window is on an east wall, it is exposed to the drive of easterly storms. A heavy wind forces water into any cracks there may be, no matter how fine. Quite possibly the window frame does not make an absolutely tight joint with the stucco. Again, a window on the floor above may be responsible, or a crack in the upper part of the wall. Water entering a wall runs down inside until it strikes a crosspiece of the frame; there it collects, and soaks into the back of the outer surface of the wall. I have known water that entered a wall around a second story window frame to show itself through the blistering and peeling of paint as much as twelve feet to one side. For this, of course, the diagonal timbers of the frame were responsible.

Paint also peels on sappy and resinous wood, although this is so well known that wood of that kind should have special treatment before being painted. But as moisture in the wood is the most common cause of peeling, it is this that should be looked for in the event of that particular trouble.

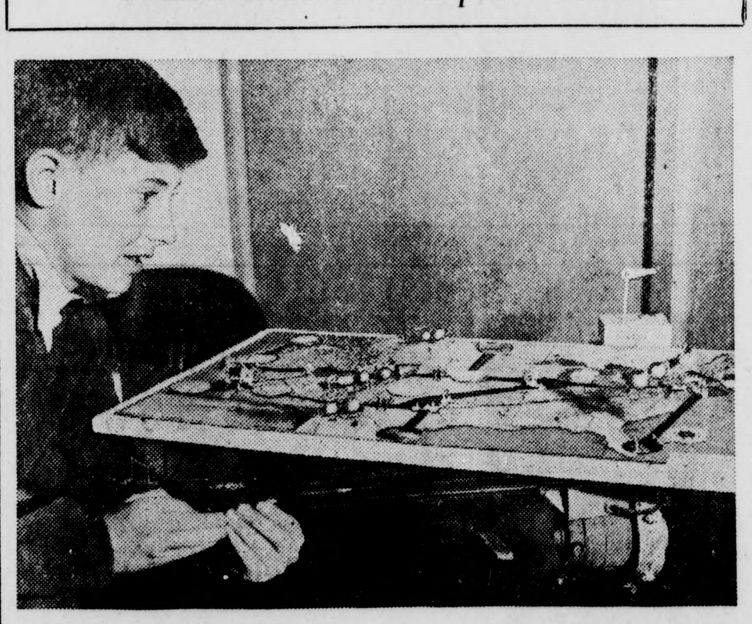
Transcontinental Airplane Line



By remote control, James D. Burke, eleven-year-old son of Richard J. Burke, an inventor, of Pasadena, Calif., is operating the world's first and only model transcontinental airplane line. The tiny "ships" shown actually ascend about three inches above the yard-long map of the United States and can be kept stationary in the air above any city for as long as the operator desires. They land and take off with arrow-like precision. The unique affair is the result of an experiment conducted by inventor Burke in air phenomena. It is worked on an air pressure principle.

For Dress and Utility

"WHY Mollie R., are you going out again? My own mother has become a gadabout and all because she made herself such a pretty new dress. Really, Ma, those soft graceful lines make you look lots slimmer. I think the long rippling collar has a good deal to do with it. Or maybe it's because the skirt fits where it should and has plenty of room at the bottom."

"Yes, My Darling Daughter."

"Daughter, dear, how you do run on! Imitate Sis; put your apron on and have the dusting done when I get back from the Civic Improvement League meeting. And speaking of aprons, that is the cleverest one Sis ever had. I love the way it crosses in the back."

"So do I, Mom, and see how it covers up my dress all over. Goodby, Mom, have a good time."

"Sis, run upstairs for my apron, won't you? I wouldn't have a spot on this, my beloved model, for all the world. It's my idea of smooth: all these buttons; no belt; these here new puffed sleeves; and this flare that's a flare."

"Just you wait, Miss, till I grow up! Your clothes won't have a look in because I've already begun to Sew-My-Own. All right. I'm going."

And so on well into the afternoon!

The Patterns.

Pattern 1268 is for sizes 36 to 52. Size 38 requires 5¼ yards of 39 inch material plus 1½ yards of 1½ inch bias binding for trimming.

Pattern 1292 is designed for sizes 12 to 20 (30 to 42 bust). Size 14 requires 4⅝ yards of 39 inch material.

Pattern 1255 is designed in sizes 6, 8, 10, 12, and 14 years. Size 8 requires 1⅜ yards of 35 inch material for the blouse and 1⅔ yards for the apron.

Send for the Barbara Bell Spring and Summer Pattern Book. Make yourself attractive, practical and becoming clothes, selecting designs from the Barbara Bell well-planned, easy-to-make patterns. Interesting and exclusive fashions for little children and the difficult junior age; slenderizing, well-cut patterns for the mature figure; afternoon dresses for the most particular young women and matrons and other patterns for special occasions are all to be found in the Barbara Bell Pattern Book. Send 15 cents today for your copy.

Send your order to The Sewing Circle Pattern Dept., 149 New Montgomery Ave., San Francisco, Calif. Price of patterns, 15 cents (in coins) each.

PLAN COMPLETE FOR COLORFUL FIESTA FETES

Official Program To Open On Pedestrian Day May 27

Plans were complete this week for the Golden Gate Bridge Fiesta, spectacular celebration of the completion and opening of the $35,000,000 suspension highway across the gate, which begins officially, Thursday of next week, Pedestrian Day, and continues to a brilliant climax on Wednesday, June 2.

Biggest, most brilliant and most colorful show in the history of California or the West, will be the Fiesta which is certain to attract to San Francisco and the bay district a multitude of not less than a million.

That is the forecast of Fiesta committees.

What is in store for Fiesta visitors and participants is a full week of thrilling, inspiring and beautiful spectacles in a city gayer and more festively arrayed than it ever has been for any celebration.

BRIDGE PARAMOUNT

The biggest and most spectacular steel structure ever built by man will be, and will remain, the most striking feature.

Other great spectacles of the Fiesta will include assembly in San Francisco Bay, after entry in line beneath the Golden Gate Bridge, of the entire United States fleet, 150 war vessels now engaged in maneuvers off Hawaii; presentation by a cast of 2000 of a damatic pageant of San Francisco in which famed baritone John Charles Thomas, opera star, will sing the leading role and for which a symphonic orchestra will render a score written for the Pageant by Composer Charles Hart; three day and one night illuminated parades, in each of which more than 60 striking floats and 75 bands representing Canada and Mexico, the great Redwood Empire and Southern California and five Western American states will take part.

Center of Fiesta spectacles and activities will be the Redwood Grove Theater, a mammoth amphitheater erected in Crissy Field, with the largest and most novel stage ever built and a grandstand capable of seating 25,000 spectators in comfort.

Mr. and Mrs. Ashley Emery and Miss Claire Moon wish to thank all their Brisbane neighbors for their expressions of sympathy following the demise of their mother, the late Mrs. Julia L. Moon.

* * *

At the last regular meeting of the Brisbane Social Club Walter Blair won first prize in the whist game. Ione Kinney, Mrs. Gagner and Anita Lummus were also winners. Consolation went to Phil Sbriglia.

* * *

Winners at the Ladies Auxiliary whist were Mrs. Naughton, Mrs. Strassburger, Hal Trafford, Helen Johns, Emma Fredericks, Helen Forsberg, Fred Schmidt, Pete Cutney, Mrs. Drummond and Mrs. Mattson. Hal Trafford won the case of beer.

* * *

Hank Gowdy is ill. His heart is so weak that it has been necessary for him to go to bed for a rest.

* * *

Happy birthday! Ione Kinney, Mrs. Strassburger, Onita Lummus and Stella Smith.

* * *

All residents should begin to get interested in the coming '49 Brisbane and Bayshore celebration. Brisbane firemen, represented by Chet Wingler and Roy Edwards, will attempt to wash two chosen Bayshore firemen off the parade grounds or vice versa.

Former Star Breaks Down In Debtor Jail

Mary Nolan

Thrust into Manhattan's ancient debtor's jail for nonpayment of a $405 dress bill, Mary Nolan, former glamour girl of the "Follies," then known as Imogene ("Bubbles") Wilson, was recently released at the request of the dress shop owner, who said "it was a terrible mistake." Miss Nolan was taken to a hospital in a state of collapse after her release.

"LIAR!... TRAITOR!... CHEAT!"

"Liar! Traitor! Cheat! You've stolen my wife...and now you'll pay for it!" GEORGE SANDERS, the accuser, and MADELEINE CARROLL and TYRONE POWER, the sweethearts, in a dramatic scene from the new Twentieth Century-Fox hit, "Lloyds of London."

The Deeds We Need

A little song when things go wrong,
A little kindness, too,
To keep us gay at work or play,
How fine for me and you!

A word of cheer to ease some fear
That darkens someone's day,
An effort made to really aid
A brother on his way!

A little smile, each little while,
To cheer some fellow's life;
These are the deeds that mankind needs
'Mid worldly care and strife!

Who can divine of aught more fine
For man to leave behind
Than this fair fame: "He had the name
Of always being kind"?

Try then each day, in kindly way,
To do a deed somehow,
That man may know, down here below,
A bit of heaven—now!

—Anonymous.

BRIDGE MEMORIAL

On Memorial Day a plaque will be unveiled on Golden Gate Bridge in San Francisco to commemorate those who died building the mile-long span. School children will drop garlands into the waters beneath the bridge in commemoration of the builders.

PAL Championship Assured Jeff Hi

Jefferson Union High School baseball team practically cinched the P. A. L. baseball championship when they defeated the Palo Alto baseball team by the score of 4 to 3, Friday of last week, on the Indian ball diamond.

The Palo Alto diamond dusters arrived in Daly City with colorful uniforms and scored two runs in the first frame. It looked as if Jefferson was in for a bad time, but the Indians fought hard and managed to eke out a 4 to 3 victory.

The score in the sixth inning was tied at three all. In this inning Jefferson scored the winning run on a double by Haran, a sacrifice by Murray and a bunt by Cupman scoring Haran. Ed Owens then blanked the visitors for the rest of the game.

Jack Haran lead the hitters for the day with a triple and a double.

Jefferson has to win but one of the two remaining games to win the championship.

Jeff Hi Track Star Goes To State Meet

Jefferson Union High School will receive state-wide recognition in track competition tomorrow when Francis Olson, star half miler, will compete in the annual California Interscholastic Track and Field Week to be held at Long Beach. Olson earned the right to run in this meet by placing third in a field of 29 good half-milers at the North Coast Section track meet held at Stanford Stadium, Saturday of last week.

Speedy Buzzy Wright, local sprinter, placed in his heat of the 220-yard dash to become eligible for the finals along with seven other men out of a field of eighteen runners. Although Wright failed to place among the first four, he gave a good account of himself.

TRADITION BACK

Minstrel performers caught the fancy of the pioneer gold seekers who flocked to San Francisco for entertainment. Lotta, Johnny De Angelis, Ned Harrigan, Patti Rose, Charlie Reed, Joe Murphy are big names in early theatrical history.

These traditions will be vitalized in the streets of San Francisco during the Golden Gate Bridge Fiesta, May 27 to June 2, which celebrates completion of the longest single span in the world.

Will the party who saw accident on Bayshore near county line, Dec. 3, 1936, about 10:50 p. m., in which a man was struck by an automobile going south, please communicate with M. King, 704 Bush street, San Francisco?
